Participants will be accepted
on a first come

Spanish Courses (Elementary and intermediate):

Have a good knowledge of the Spanish language is the most important thing to participate actively in the society life of community for people living abroad.

Spanish course for beginners: destined to adults who were educated with a low knowledge in the Spanish language.

Intermediate course: address to those fluent in Spanish and looking forward to get a better grade in this language.

Both courses are aimed to learn how to speak in complete sentences and actually communicate. These courses have everything you need to start learning Spanish right now. You can start speaking Spanish by focusing on sentence structure, not just vocabulary. You learn Spanish words in context, along with other complimentary words, to form complete sentences and phrases. You don't just learn the words, you learn to speak and communicate in Spanish.

Spanish Tutorial:

This is a best academic requirement for the Spanish courses. These Spanish lessons teach you how to speak Spanish in everyday situations by teaching you sentence structure along with grammar and vocabulary. Large schedules make possible to you coordinate the course with any activity you have. Different activities are proposed as: listen radio, play games, etc

Occupational guidance:

We have different ways to show you the labour market in Spain.

Contents:

- Job hunting.
- Contracts: full-time, part time...
- Curriculum Vitae.
- Letter of introduction.
- Job interview.
- Basic Academic Requirements.
- Recognition and evaluation service of individual awards from overseas.
- Official organisations for job hunting.
- Job hunting in Internet.
- Rights and owes of workers.

Citizenship workshop:

The aim of these workshop will be to show the different aspects of the way of life in the municipality to make easy social integration on the community life.

We provide information about official organisations, society life, education, health, legislation, geography and history of the municipality, included customs and usages of the Canary Islands.

A monthly workshop should be programmed with cultural and social activities. Will be guided tours to the most important historical places in town and those activities of interest, pleasure and useful to you.
